

Hi Terri:

I kept meaning to get in touch with you to let you know how well my presentation with went with our Board of Directors. The presentation was changed at the last minute....but I still used the same concept. They understood what I was trying to say!!!! Shari indicated that it was put together very well.

To top it all off.....I just received a huge raise and bonus for my accomplishments - half of that was because I applied what I learned. A great success story!

Thank you, again. It was fun working with you!

Warm regards,

*Leanne Burton*
